

## *Curriculum Vitae*

Dr. Gangfeng Ouyang is Professor of School of Chemistry and Chemical Engineering, Sun Yat-sen University, Director of the Institute of Environmental Chemistry, and Director of the Research Center for Micro-extraction and Separation Technology. He is the winner of the National Science Fund for Distinguished Young Scholar, Fellow of Royal Society of Chemistry (FRSC), the Youth Leading Talent in Technological Innovation of the Ministry of Science and Technology and Distinguished professor of “Zhujiang Scholar”. Dr. Ouyang’s research primarily focuses on environmental analytical chemistry and fundamental studies and applications of micro-extraction technology. He has published more than 100 papers in different refereed journals and obtained more than 2000 citations. Currently, he is the contributing editor of *Trends in Analytical Chemistry* and an editorial board member of *Analytica Chimica Acta*, *Microchemical Journal*, *Environmental Chemistry* and the *Chinese Journal of Analytical Chemistry*.
