Jens Trafkowski is Global Product Manager for the liquid phase separations division and took over responsibility for Agilent's 1290 Infinity II 2D-LC solution in 2012. Before joining Agilent in 2011, Jens gained over six years experience as an application specialist, offering application development, training and technical support for LC-MS systems.

After finishing his studies of food chemistry, Jens gained his PhD from the Institute of Legal Medicine in Bonn for his work on HPLC-MS/MS applications in forensic and clinical toxicology.
